August Debouzy advised Spectral TMS, a leading French startup in the field of autonomous augmented reality for the industrial sector, on its €2 million seed financing round which marks the entry into its capital of Elaia, along with Spectral TMS's historical investors.

Spectral TMS provides an augmented reality solution that supports, guides and trains industrial technicians during maintenance, production and operation operations.

This fund raising will allow Spectral TMS to accelerate its development, both on the design and technological development, and on the commercial side.

Legal advice :

August Debouzy assisted Spectral TMS with a team composed of Julien Wagmann (partner), Laure Khemiri (senior associate) and François Richard (associate). Also involved in the preparation of the fund raising were Mahasti Razavi (partner), Diane Reboursier (counsel), Laure Arnon-Duquesnoy (senior associate), Roxane Blanc-Dubois (senior associate) and Stéphanie Lapeyre (associate).
