DIGITAL MARKETS ACT: COMMISSION CREATES HIGH-LEVEL GROUP TO PROVIDE ADVICE AND EXPERTISE IN IMPLEMENTATION

European Law | 24/03/23 |

The European Commission adopted on 23 March 2023 a decision to set up a High Level Group for the Digital Markets Regulation.

The diversity of the regulators in this group demonstrates the variety of questions raised in the framework of the DMA.

In accordance with the obligations under the DMA, this group will be composed of 30 representatives appointed by the Body of European Regulators for Electronic Communications, the European Data Protection Supervisor and the European Data Protection Committee, the European Competition Network, the Consumer Protection Cooperation Network and the European Regulators Group for Audiovisual Media Services.

The High Level Group can provide the Commission with advice and expertise to ensure a consistent and complementary implementation of the DMA and other sector-specific rules for gatekeepers. It can also provide expertise in market surveys on new services and practices to help ensure the sustainability and effectiveness of the DMA. The High Level Group will have a two-year mandate and will meet at least once a year.
