## BIOGRAPHY COUNSEL

As part of our Technologies - Intellectual Property - Media team, Eden mainly advises French and international clients on innovative projects, more specifically in the areas of information and communication technologies and data protection. He also assists clients with disputes related to information technology and copyright.

Eden is also regularly seconded to the legal department of one of our clients, including with respect to volume licensing agreements and data protection.

After graduating in Intellectual Property and IT Law from Paris II Panthéon-Assas University, Eden joined August Debouzy in 2018, the year when he was admitted to the Paris Bar.
